JOURNAL OF RESEARCH IN SCIENCE TEACHING Vol. 9, PP. 391-392 (1972)

AUTHOR INDEX

Agne, Russell M., and Blick, David J.: A Comparison of Earth Science Classes Taught by using Original Data in a Research-Approach Technique versus Classes Taught by Conventional Approaches not using such Data, 83

Allen, Leslie R.: An Evaluation of Children's Performance on Certain Cognitive, Affective, and Motivational Aspects of the Interaction Unit of the Science Curriculum Improvement Study Elementary Science Program, 167

Anderson, Hans A.: *see* Bryant, Napoleon, Jr.

Anderson, O. Roger: A Quantitative Method to Assess Content Structure in Verbal Interaction, 305

Armstrong, Terry: Differences in Choices of Science Related Academic Majors for Two Groups of Idaho College Freshmen, 235

Blankenship, Jacob W.: *see* Jones, Paul L.

Blick, David J.: *see* Agne, Russell M.

Brewer, James K.: *see* Penick, John E.

Bridgham, Robert: Ease of Grading and Enrollments in Secondary School Science I. A Model and its Possible Tests, 323

—: Ease of Grading and Enrollment in Secondary School Science II. A Test of the Model, 331

Brown, Stanley B., and Brown, L. Barbara: A Semantic Differential Approach to the Delineation of Scientific Values Possessed by Professors of Science and Humanities, 345

Brown, L. Barbara: *see* Brown, Stanley B.

Bryant, Napoleon, Jr., and Anderson, Hans A.: Effects of Performance Objectives on Achievement, 369

Butts, David P.: *see* Irwin, R. Scott

Butzow, John W., and Sewell, Leyton E.: An Investigation of Introductory Physical Science Using the Test of Science Process, 267

Dickson, W. Patrick: Elitism in Science Education Research, 175

Doran, Rodney L.: Misconceptions of Selected Science Concepts Held by Elementary School Students, 127

Dreyfus, A.: *see* Jungwirth, E.

Dwyer, Francis M.: The Effect of Overt Responses in Improving Visually Programmed Science Instruction, 47

Gallagher, James Joseph: A Summary of Research in Science Education for the Years 1968–1969: Elementary School Level, 19

Gillespie, James P.: A Study of Concept Development and Communication Abilities in Young Children Using Variations in Leaf Morphology, 57

Glass, Gene V: The Wisdom of Scientific Inquiry on Education, 3

Graber, Richard A., Means, Robert S., and Johnsten, Thomas D.: The Effect on Subsuming Concepts on Student Achievement on Unfamiliar Science Learning Material, 277

Humphrey, James H.: The Use of Motor Activity Learning in the Development of Science Concepts with Slow Learning Fifth Grade Children, 261

Irwin, R. Scott, and Butts, David P.: A Comparative Study of the Effect of Certain Factors on the Teaching Behavior of Preservice Elementary Teachers of Science, 75

Ivany, J. W. George, and Oguntonade, Christopher B.: Verbal Explanation in Physics Classes, 353

James, Reuben J.: Traits Associated with the Initial and Persistent Interest in the Study of College Science, 231

James, Robert K.: A Comparison of Group and Individualized Instructional Techniques in Seventh Grade Science, 91

Janke, Delmar L., and Pella, Milton O.: Earth Science Concept List for Grades K-12 Curriculum Construction and Evaluation, 223

Johnsten, Thomas D.: *see* Graber, Richard A.

Jones, Paul L., and Blankenship, Jacob W.: The Relationship of Pupil Control Ideology and Innovative Classroom Practices, 281

Jungwirth, E., and Dreyfus, A.: The Israeli "Bagrut" Examination in BSCS Biology, 361

Lowery, Lawrence F.: *see* Peterson, Rita W.

Means, Robert S.: *see* Graber, Richard A.

Milson, James L.: The Development and Evaluation of Physical Science Curriculum Materials Designed to Improve Student Attitude, 289

Neie, Van E.: Verbal Predictive Ability and Performance on Selected Science Process Tasks, 213

Oguntonade, Christopher B.: *see* Ivany, J. W. George

Ogunyemi, E. 'Lanre: The Effect of Different Sources of Verbalized Information on Performance at a Science-Related Cognitive Task, 157

Pella, Milton O.: *see* Janke, Delmar L.

Penick, John E., and Brewer, James K.: The Power of Statistical Tests in Science Teaching Research, 377

Peterson, Rita W., and Lowery, Lawrence F.: The Use of Motor Activity as an Index of Curiosity in Children, 193

Popp, Leonard, and Raven, Ronald: The Effects of Response Format of a Structured Learning Sequence on Third Grade Children's Classification Achievement, 177
Pritchard, W. Maurice: Student Evaluation of College Physics Teaching, 383
Raven, Ronald J.: The Development of the Concept of Acceleration in Elementary School Children, 201
—: A Multivariate Analysis of Task Dimensions Related to Science Concept Learning Difficulties in Primary School Children, 207
—: *see* Popp, Leonard
Rentz, R. Robert: *see* Simpson, Ronald D.
Robertson, P. G.: Commentary on "A Practical Examination for B.S.C.S. Students," 385
Schwirian, Patricia M., and Thomson, Barbara: Changing Attitudes Toward Science: Undergraduates in 1967 and 1971, 253
Sewell, Leyton E.: *see* Butzow, John W.
Shrum, John W.: *see* Simpson, Ronald D.
Simpson, Ronald D., Shrum, John W., and Rentz, R. Robert: The Science Support Scale: Its Appropriateness with High School Students, 123
Starr, Robert J.: A Study of the Use of "Invitations to Enquiry" and Student Attitude, 247
Tamir, P.: Comment on "Cultural Bias in the Attainment of Concepts of the Biological Cell by Elementary School Children," 185
—: Understanding the Process of Science by Students Exposed to Different Science Curricula in Israel, 239
Thomson, Barbara: *see* Schwirian, Patricia M.
Trindade, Arnold L.: Structures in Science Teaching and Learning Outcomes, 65
Welch, Wayne W.: Review of Research 1968-69 in Secondary Level Science, 97
—: Evaluation of the PSNS Course. I: Design and Implementation, 139
—: Evaluation of the PSNS Course. II: Results, 147
Woodman, Charles A.: Influence of Selected Physical Science Study Committee (PSSC) Films on Certain Learning Outcomes in the Teaching of High School Physics, 271

JOURNAL OF RESEARCH IN SCIENCE TEACHING

Editor

O. ROGER ANDERSON

Teachers College, Columbia University
New York, New York

Associate Editor

J. W. GEORGE IVANY

Teachers College, Columbia University
New York, New York

Book Review Editor

MAURICE BELANGER

Universite du Quebec a Montreal
Montreal, Canada

Editorial Advisory Board

ROBERT BRIDGHAM
Stanford University
Stanford, California

MILTON O. PELLA
University of Wisconsin
Madison, Wisconsin

GLENN CRUMB
Kansas State Teachers College
Emporia, Kansas

RONALD J. RAVEN
State University of New York at Buffalo
Buffalo, New York

J. A. EASLEY, JR.
University of Illinois
Urbana, Illinois

JAMES T. ROBINSON
University of Colorado
Boulder, Colorado

PAULINE GRATZ
Duke University Medical Center
Durham, North Carolina

MARY BUDD ROWE

JOURNAL OF RESEARCH IN SCIENCE TEACHING

Volume 9, 1972

ISSUE 1, MARCH

Publisher's Note 1

The Wisdom of Scientific Inquiry on Education: Gene V Glass 3

A Summary of Research in Science Education for the Years 1968–1969: Elementary School Level: James Joseph Gallagher 19

Research Reports

The Effect of Overt Responses in Improving Visually Programmed Science Instruction: Francis M. Dwyer 47

A Study of Concept Development and Communication Abilities in Young Children Using Variations in Leaf Morphology: James P. Gillespie 57

Structures in Science Teaching and Learning Outcomes: Arnold L. Trindade 65

A Comparative Study of the Effect of Certain Factors on the Teaching Behavior of Preservice Elementary Teachers of Science: R. Scott Irwin and David P. Butts 75

A Comparison of Earth Science Classes Taught by using Original Data in a Research-Approach Technique versus Classes Taught by Conventional Approaches not using such Data: Russell M. Agne and David J. Blick 83

A Comparison of Group and Individualized Instructional Techniques in Seventh Grade Science: Robert K. James 91

ISSUE 2, JUNE

Review of Research 1968–69 in Secondary Level Science: Wayne W. Welch 97

Research Reports

The Science Support Scale: Its Appropriateness with High School Students: Ronald D. Simpson, John W. Shrum, and R. Robert Rentz 123

Misconceptions of Selected Science Concepts Held by Elementary School Students: Rodney L. Doran 127

Evaluation of the PSNS Course. I: Design and Implementation: Wayne W. Welch 139

Evaluation of the PSNS Course. II: Results: Wayne W. Welch .. 147

The Effect of Different Sources of Verbalized Information on Performance at a Science-Related Cognitive Task: E. 'Lanre Ogunyemi 157

An Evaluation of Children's Performance on Certain Cognitive, Affective, and Motivational Aspect of the Interaction Unit of the Science Curriculum Improvement Study Elementary Science Program: Leslie R. Allen 167

Elitism in Science Education Research. W. Patrick Dickson 175

The Effects of Response Format of a Structured Learning Sequence on Third Grade Children's Classification Achievement: Leonard Popp and Ronald Raven 177

Comment and Criticism

Comment on "Cultural Bias in the Attainment of Concepts of the Biological Cell by Elementary School Children": P. Tamir 185

Book Reviews 187

Books Received 191

ISSUE 3, SEPTEMBER

The Use of Motor Activity as an Index of Curosity in Children: Rita W. Peterson and Lawrence F. Lowery 193

Research Reports

The Development of the Concept of Acceleration in Elementary School Children: Ronald J. Raven 201

A Multivariate Analysis of Task Dimensions Related to Science Concept Learning Difficulties in Primary School Children: Ronald J. Raven 207

Verbal Predictive Ability and Performance on Selected Science Process Tasks: Van E. Neie 213

Earth Science Concept List for Grades K-12 Curriculum Construction and Evaluation: Delmar L. Janke and Milton O. Pella 223

Traits Associated with the Initial and Persistent Interest in the Study of College Science: Reuben J. James 231

Differences in Choices of Science Related Academic Majors for Two Groups of Idaho College Freshmen: Terry Armstrong 235

Understanding the Process of Science by Students Exposed to Different Science Curricula in Israel: P. Tamir 239

A Study of the Use of "Invitations to Enquiry" and Student Attitude: Robert J. Starr 247

Changing Attitudes toward Science: Undergraduates in 1967 and 1971: Patricia M. Schwirian and Barbara Thomson 253

The Use of Motor Activity Learning in the Development of Science Concepts with Slow Learning Fifth Grade Children: James H. Humphrey 261

An Investigation of Introductory Physical Science Using the Test of Science Process: John W. Butzow and Leyton E. Sewell 267

The Influence of Selected Physical Science Study Committee (PSSC) Films on Certain Learning Outcomes in the Teaching of High School Physics: Charles A. Woodman 271

The Effect of Subsuming Concepts on Student Achievement on Unfamiliar Science Learning Material: Richard A. Graber, Robert S. Means, and Thomas D. Johnsten 277

The Relationship of Pupil Control Ideology and Innovative Classroom Practices: Paul L. Jones and Jacob W. Blankenship 281

Book Review 287

ISSUE 4, DECEMBER

The Development and Evaluation of Physical Science Curriculum Materials Designed to Improve Student Attitudes: James L. Milson 289

A Quantitative Method to Assess Content Structure in Verbal Interaction: O. Roger Anderson 305

Ease of Grading and Enrollments in Secondary School Science I. A Model and its Possible Tests: Robert Bridgham 323

Ease of Grading and Enrollment in Secondary School Science II. A Test of the Model: Robert Bridgham 331

Research Reports

A Semantic Differential Approach to the Delineation of Scientific Values Possessed by Professors of Science and Humanities: Stanley B. Brown and L. Barbara Brown 345

Verbal Explanation in Physics Classes: J. W. George Ivany and Christopher B. Oguntonade 353

The Israeli "Bagrut" Examination in BSCS Biology: E. Jungwirth and A. Dreyfus 361

Effects of Performance Objectives on Achievement: Napoleon Bryant, Jr., and Hans A. Anderson 369

Comments and Criticism

The Power of Statistical Tests in Science Teaching Research: John E. Penick and James K. Brewer 377

Student Evaluation of College Physics Teaching: W. Maurice Pritchard 383

Commentary on "A Practical Examination for B.S.C.S. Students": P. G. Robertson 385

Book Review 387
